

# Never Before Has The End Of The World Sounded So Uplifting!

Formed at the beginning of the nineties, WUTHERING HEIGHTS emerged from the Danish metal scene and began to draw attention of the rest of the world. Their brilliant epics of symphonic speed/power metal with progressive and folk roots became the trademark of their entire discography. Their previous albums were very well-received by fans and media worldwide and solidified WUTHERING HEIGHTS' status as one of the most interesting bands to emerge on the international heavy metal scene.

At last, after 3 years of silence, the time has come for the 5th album, "Salt," to be released. Featuring the same line-up as seen on their last album, "The Shadow Cabinet," guitarist/songwriter ERIK RAVN and the boys have created another epic album which is undoubtedly their strongest to date. While writing its lyrics, Erik discovered that the imagery of the sea was a perfect setting for his dark tales of personal and global armageddon. Consequently the music has traded some of its Celtic delicacy for the rawness of the sailor's tunes.

Never before has the end of the world sounded so uplifting!
