A NEW FORCE IN PROGRESSIVE POWER METAL EMERGES FROM SOME FAMILIAR NAMES

CREATION'S END is the vision of New York City's RUDY ALBERT (guitar - from ZANDELLE) and DARIO RODRIGUEZ (drums).

Rudy and Dario, who met in school, have been playing music together since 1999. As they grew tighter in their playing,

they began to focus on writing original material. The nature of the material evolved from simple metal tunes in the early years, to more complex and mature compositions. • During the summers of 2003 through 2006, Dario and Rudy convened to write music. The focus of the sessions was simply to make great music that they both enjoyed, and each summer, Rudy and Dario wrote and recorded a new demo of original material. • Rudy soon took on keyboard duties in the band UNTIL DESTINY, where he met JOHN MACALUSO (drummer of JAMES LABRIE BAND, FOOL'S GAME, ex-ARK, ex-TNT, ex-YNGWIE MALSTEEN). After a short period of time, Rudy and Dario decided that the time was right to revisit their old material to record and release it the right way. • With a newly renovated studio and producer John Macaluso on board, Rudy and Dario set out to record 8 reworked versions of songs that appeared on their demos. They were joined by the lineup - MIKE DIMEO, (ex-MASTERPLAN, ex-RIOT), MARCO SFOGLI (James LaBrie Band), and JOE BLACK (CHRIS CAFFERY, ex-Zandelle).

• In Summer of 2010 the band decided to have world known engineer NEIL KERNON (QUEENSRYCHE, YES, NILE, CANNIBAL CORPSE, etc) mix the album. • November 2010 will see the release of "A New Beginning" and marks the fruition of the album envisioned from the beginning - melodic, touches of prog, a strong sense of groove, and brutally heavy and dark. US and European tour dates are being planned, with a date at ProgPower USA in September 2011 already confirmed.
